We would like to thank our scientific board member supervisors who evaluate the articles published in this issue for their contributions.

Journal of Retina Vitreus

AIMS AND SCOPE

The Journal of Retina&Vitreous is a double-blind peer-reviewed, international periodical about retina and vitreous. The publication language is English.

The Journal of Retina&Vitreous is published quarterly (March, June, September and December).

The aim of the Journal of Retina&Vitreous is to publish research articles on original issues of the highest clinical and scientific quality at international level. Along with this aim it publishes reviews, short editorials articles, original case reports and figures covering fundamental innovations dealing with education.

The required knowledge for ophthalmology specialists is assessed and relevant issues are addressed in the Journal of Retina&Vitreous.

The journal's editorial and publishing process is adherent to standards of ICMJE and COPE.

COPYRIGHT

Any of the articles, drawings, figures and tables published in Journal of Retina-Vitreous can not be published or reproduced in whole or in part without the prior written permission of the publisher. For scientific purpose (on condition that the reference is expressed) summarizing and quotations can be done.

The authors are responsible for their articles, figures and photos and the companies are responsible for their advertisements.

Journal of Retina-Vitreous is a periodical publication, Included in TUBITAK ULAKBIM Turkish Medical Database, Index Scopus Index Copernicus and EBSCO Index.
